specialization

Motion Designer

I'm the motion magician who turns static designs into lively animations and visual stories that will make you say wow! My specialty? Crafting motion graphics that not only engage your audience but also add a sprinkle of fun to your content.

Tools I Use

With tools like Adobe After Effects and Cinema4D, I bring your ideas to life. Adobe Premiere Pro is my playground for creating video magic that will have your audience dancing with joy.

ABOUT

Hi there! I'm Jonathan Yabes.

I'm a freelance motion graphics designer and filmmaker based in London, Ontario.

I'm a proud father of two, husband to a lovely wife, and dedicated family man.

My passion is telling stories through motion design. I love the whole creative process - from developing concepts to pushing keyframes and bringing scenes to life through animation. My aim is always connecting with audiences and evoking emotions.

In my spare time, you can find me outdoors enjoying nature or spending time with my family.

I thrive on collaborating with interesting people and taking on new creative challenges. If you're looking for a passionate and dedicated motion design partner, I'd love to hear about your project. Please feel free to drop me a line whatever's on your heart and mind.

Let's create something amazing together!
